

Customized to Your Business's Needs

The process for Burr Consulting is simple, effective, and efficient. Initially, I will meet with you to gain a better understanding of your needs and expectations, to better tailor the systems, processes and trainings to meet the needs of your organization. Second, I will put together a proposal and plan for the specific needs of your organization. Then, I design strategic systems, develop efficient, creative, customized, money-saving HR processes, and then plan with you how to deploy them throughout your organization.

Matt was very accommodating to our schedule and ensured he made steady progress on the job, keeping us up to date all the way."

Kacy J. Z. Hagan, Director of Human Resources,

"Matt designed and facilitated a fantastic series of team building and manager skills workshops for Cameron Manufacturing & Design. He was able to take our initial thoughts and architect activities and learning that met defined business objectives and provided additional team building interaction. It also included actionable takeaways that added value from a strategic perspective. The entire management team was very impressed and spoke extremely favorably about the entire program and experience."
